

## Carports

Carports are a smart move - protecting your car and increasing the value of your home at the same time

### Why have a carport built?

- **An attractive addition to your home**  
Our attractive and contemporary carport designs will make your house stand out on the block for all the right reasons.
- **Protect your car**  
Protect your car with a carport and save! Retain the finish of your car for longer and protect against corrosive bird leavings.
- **Add value to your home**  
Increase the value of your home to prospective buyers or when re-financing.

*"Your **Smart-Arch** trusses are beautiful and my builder who put them up was very impressed with the quality. Everything fitted perfectly!"*

R Smith, Impressed Lyrebird Customer

### Choose from 4 Carport roofing profiles and 2 standard sizes

**Standard** - Width 3.0m x Depth 5.3m

**Double** - Width 5.5m x Depth 5.3m

## Patios

Live up your outdoor entertainment area with a beautiful and unique *Smart-Arch* truss or *Curved-Arch* patio

### Why build a patio?

#### Add value to your home

Keep your money in your pocket when you re-finance or sell - and enjoy the extra room until then!

#### Gain an extra living room - an outdoor living room

Gain an additional room that's full of air and light. Bring the indoors, outdoors and enjoy your entertainment area in any weather.

#### They look lovely!

Patios are an attractive addition to your home and mean that you can enjoy your garden more often. They're also a great place for kids to play!

### Lyrebird's *Smart-Arch* trusses:

- **Make building your pergola or patio easy**  
With prefabricated trusses, your patio or pergola project will be well on its way quickly and easily.
- **Are strong AND attractive**  
Lose the ugly metal beams whilst keeping their strength. Lyrebird's *Smart-Arches* are made to our high quality standards using F8/MGP12 radiata pine and can be LOSP treated.

**Looking for something unique? We can custom-manufacture to your specifications**
