Frieze & Baluster Slat Motifs

All pine decorative items shown on these pages are LOSP (H3) treated to resist rotting and borers. An oil based primer needs to be used before applying acrylic paint.

Lyrebird Enterprises has always produced a range of quality reproduction and contemporary brackets. Based on classic designs and developments in modern building design, these brackets will increase the beauty and value of any home. The products shown here are hand finished from solid pine, then treated with LOSP to resist rotting and borers.

Hallway Arches

Lyrebird's hallway arches are made from clear pine, ready for staining or painting. They come in a set of 3 - 2 corner pieces and the dropper.

Sets are made to suit 3 spans:

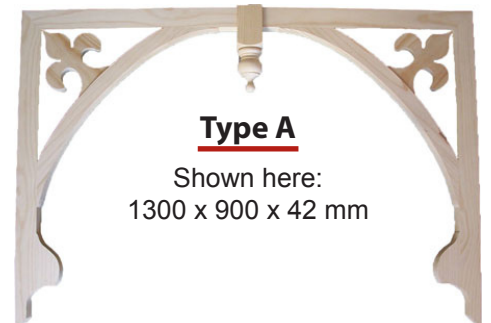

- 900 to 1100mm (700 high)
- 1100 to 1500mm (900 high)
- 1500 to 2000mm (1000 high)

The top rail of the corner pieces is trimmed to suit the width of your hallway or door opening, and the dropper is slipped over the cuts to hide the joint and finish it off beautifully.

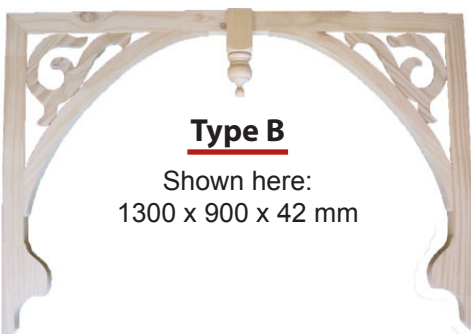

Type A

Shown here:
1300 x 900 x 42 mm

Type B

Shown here:
1300 x 900 x 42 mm

Type C

Shown here:
1300 x 900 x 42 mm

Type S

Shown here:
1300 x 900 x 42 mm
